

COOKIE POLICY

These are details of the information stored and set when you browse our website.

What are cookies?

Cookies are small pieces of data that are stored in your browser when you access our website. Their purpose is to identify the device you are using and store information about your preferences or past activity within the bounds of this site.

Cookie name	Description	
ASP.NET_SessionId ASPXAUTH AspNetCore_SessionId	Online notification form cookie	These cookies are the default ones used by ASPNET to uniquely identify the user's session on the site and relates the visitor's unique session to server side data. The cookie will expire at the end of the session (when you close your browser).
EktGUID	Ektron user ID	This cookie is set by the analytics reporting system, and only used by authenticated users who view analytics data.
ecm	Ektron preferences	This cookie is used by the website to store information about the anonymous and logged in visitor and site information. For authenticated users, the user id and a unique ID are stored, and compared with the values on the server to determine valid authentication.
_ga	Google Analytics	This used by Google analytics to distinguish users.
_gid	Google Analytics	This used by Google analytics to distinguish users.

_gat	Google Analytics	This used by Google analytics to throttle request rates.
.AspNetCore.Antiforgery	Prevent Cross-Site Request Forgery	This is a token used to prevent Cross-Site Request Forgery attacks where a malicious site tries to use a user's existing session. The token is supplied with certain requests and used to confirm that the request originated from the expected site.

How do I change my cookie settings?

Most web browsers allow some control of most cookies through the browser settings. To find out more about cookies, including how to see what cookies have been set, visit www.aboutcookies.org.uk or www.allaboutcookies.org.
